

QUESTIONS TO ASK WHEN SEARCHING FOR A CARE FACILITY

By Chaplain FED UP ABOUT IT

What is the staff to patient ratio? If it's over 25 patients to one RN and 2 LPNs and 4 CNAs then walk out.

Who is the Long-Term Care Ombudsman for this facility and what is their contact info?

Who is the Long-Term Care licensing Dept Surveyor for this facility and what is their contact info?

What foods are served to the patients in this facility and let me see the menu and can we bring in food and can our loved one order out?

How many violations has this facility had in the last 3 years and how many complaints?

I want a contract drawn up that will allow me and at least one other family member to be allowed to come into this facility at least 3 times per week to visit our loved one under any conditions including during a pandemic.

I want it in writing that I can move my loved one out of this facility any time I want and we can request transferring our loved one to a hospital for evaluation at any time with no problems from this facility.

I want it in writing that if there is any neglect, or abuse or mistreatment by any staff members then they are to be removed from caring for my loved one and replaced by another staff member.

I want it in writing that our loved one will not be vaccinated without our permission and unvaccinated family and members of the Clergy will be allowed in to visit my loved one under any conditions at least 3 time per week for at least one hour per visit.

I want a list of all medications that are being given to my loved one on a regular basis and there are to be no new meds given without our consent.

HAVE A NICE DAY John 14:27
