

Barilla The Armadilla

Barilla The Armadilla thought he couldn't,

"What do you mean he thought he couldn't? He thought he couldn't do what?"

"Well just hold on there partner don't get your spurs in a uproar or something, just chill and give this saddle story a chance."

"A chance to do what? This is all very confusing to me."

"Just sit back and let me tell you the story of Barilla The Armadilla who thought he couldn't"

"Ok, go ahead and start the story, I'm ready, now where have I heard Barilla before?"

This story takes place during the shootout at the OK Corral on Oct 26 1881. Well Barilla thought he couldn't make much of an impact on American history but that all changed one very famous day.

You see Wyatt Earp and his two brothers Virgil, and Morgan Earp along with Doc Holiday were told of a disturbance at the OK Corral in Tombstone Arizona, the Clanton boys were big trouble and the Earps were the law in Tombstone and they were bound to uphold it.

Well there they all were standing face to face, any sudden moves could unleash a hail of gun fire. All hell was about to break loose at any minute then out of nowhere here comes Barilla walking right behind the Clantons just minding his own business then Ike Clanton turned around startled and that sudden movement triggered an immediate hail of gun fire and when it was all over the Earps had won the day.

You see if it hadn't been for ole Barilla catching the Clantons off guard the way he did the gun fight at the OK Corral might have turned out a lot different, but thanks to Barilla the Brave Armadilla the law in Tombstone prevailed and the legend of Wyatt Earp was forever preserved in American western folklore.

O and later that day brave Barilla the Armadilla went home and had some pasta Barilla with meatballs and red sauce with his family. The End

BARILLA THE ARMADILLA
